Comments and Recommendations

Katya has worked extremely well during this course, and has developed both her language skills and analytical skills through hard work and participation in class. She has become much more confident at speaking publicly in English and has challenged herself to work on difficult projects, which has led to her English vocabulary improving significantly.

Katya should be very proud of the work she has done and the improvements she has made to her language, communication and thinking skills throughout the course. She is much more capable of developing a strong argument in her academic work, and of supporting her ideas with appropriate supporting evidence. I would be happy to recommend Katya for further study in the UK, should she wish to do so.
